Content Strategy and Distribution Planner

B2B Digital Marketing Masterclass

Purpose and finished output

Choose content that helps a defined audience make a decision and plan its distribution and measurement. Your output is a completed working sheet and a reasoned next decision.

Use with this lecture

Lecture 3: Demand Generation-Content, Outreach, and Paid Acquisition

How to complete the tool

1. Choose one real case within the course topic. Write its scope, time period, and the people affected before filling the working sheet.

2. Complete the six fields on page two. Cite a source or explain how you will obtain the evidence. Mark untested assumptions explicitly.

3. Compare your sheet with the example and the quality checks below. Revise unsupported claims before you use the result.

4. Name one next action, its owner, and a review date. Save your completed file and carry the relevant evidence into the next lecture.

Worked example

Illustrative case for practice. A creator turns repeated customer questions into a practical walkthrough and distributes excerpts that lead back to the full resource. The team checks whether the content helps relevant people take a useful next step rather than rewarding volume alone.

Quality checks before using your answer

[ ] Content answers a real audience question

[ ] Sources and claims are checked

[ ] Repurposing preserves context

Content Strategy and Distribution Planner

B2B Digital Marketing Masterclass
